

Sustainability at Mighty Hikes

Macmillan Cancer Support

Macmillan is committed to reducing the amount of plastic used at our events by finding alternatives to single-use plastic, reusing plastic wherever possible, and ensuring recycling facilities are provided throughout our Mighty Hikes. Our hikers are encouraged to bring their own refillable water bottles, with Macmillan providing regular stations for them to top up their supply. Macmillan do not provide any single use plastic bottles at the Mighty Hikes.

For 2023, all cable ties used at the event are reusable, At our finishing line, our hikers will also receive their bubbles in a reusable glass. All of our waste is relocated offsite and split into recyclable and non-recyclable to ensure the maximum amount of waste can be recycled.

Threshold Sports

At Threshold we believe that more is in you. Our purpose is to help people realise their potential through world class events. Fulfilling our purpose is only possible in the long term if sustainability is embedded in all that we do. For that reason, we believe passionately that our events should strive to have an positive impact on the natural world as they do on the teams and individuals that participate in them. More information can be found [here](#).

Extreme Hospitality

Sustainability sits at the heart of Extreme Hospitality's event and catering strategy. During the course of organising our part of the events around the country, we seek to work with sustainable suppliers, limit our waste and reduce our carbon footprint. When carefully choosing our menus wherever possible we use locally sourced ingredients

Results Base Ltd.

We at Results Base Ltd are conscious of the impact that us as humans are placing on the environment and are thus committed in reducing our 'footprint' by any way possible. With the majority of our events taking place in and/or around National Parks, we see what nature currently has to offer and feel we can be proud of what we currently do to be environmentally friendly.
